

July 19, 1982

Memo To File:

RE: White River Shale Oil Corp.
White River Shale Project
ACT/047/017
Uintah County, Utah

On July 16, 1982, Jim Godlove and Ralph DeLeonardis met with Susan Linner, Pam Grubaugh-Littig, Tom Portle, and Tom Tetting at the UDOGM office.

At this time WRSOC submitted an updated incremental bonding proposal pursuant to our July 13 meeting on this subject. Further details on the breakdown of the bond are forthcoming.

Secondly, OGM presented the applicant with a draft list of comments on the WRSOC response to the Division review letter.

It was decided at this time not to go to the Board for tentative approval at the July hearing. Rather, a summary would be presented to the Board to appraise them of the progress to date, the WRSOC contractual obligations, and the unique nature of the Shale industry situation. This would allow an additional month to address outstanding issues.

THOMAS L. PORTLE *TLP*
RECLAMATION SOILS SPECIALIST
